ABOUT THE PRODUCTS

**Easy Access Picnic Table**

The Easy Access Picnic Bench by Thor Joinery is a unique design currently not available anywhere else. The design is special as it negates the end struts usually found on traditional tables, allowing the occupant to sit without having to raise their legs.

- ▲ This table is made from treated timber, minimum 45mm thickness so the table is extremely sturdy and heavy.

Classic Design, Heavyweight Contender

Our Round Picnic tables do not deviate from the classic design, but are made to be more durable, robust and heavyweight than other manufacturers. As a result these tables do not necessarily need to be fixed to the ground due to their weight.

Available in two standard sizes and also finished to a colour of your choosing.
